

Statement of Work #USGTC 20260010

This Statement of Work (“**SOW**”), adopts and incorporates by reference the General Terms and Conditions (“**GTC**”) attached below and/or as available via the following link:

https://www2.intellecteu.com/files/IntellectEU_General_Terms_and_Conditions_NV.pdf

Transactions performed under this SOW will be conducted in accordance with and be subject to the terms and conditions of this SOW and GTC. Capitalized terms used but not defined in this Statement of Work shall have the meanings set out in GTC. In case of any changes of the GTC available via the link, the attached version of GTC shall remain effective until Expiration Date of this SOW.

This SOW is entered into by and between: IntellectEU NV, a Belgian company, with offices located at Kanaalbrugstraat 15-5.1, 1500 Halle, Belgium, VAT Number BE0468010251 (“**IntellectEU**”) and STRATALINK LABS LTD, with offices located at 71-75 Shelton Street, Covent Garden, London, United Kingdom, WC2H 9JQ and Company number: 16681619, VAT number: N/A (“**Customer**” and together with IntellectEU, the “**Parties**”, and each a “**Party**”).

This SOW is effective beginning on April 30, 2026 (“**Effective Date**”) and shall be valid through July 23, 2026 (“**Expiration Date**”).

The project under this SOW shall start during up to 30 calendar days after receipt of the Security deposit as defined below.

1. Scope of Work / Services

IntellectEU proposes to implement a comprehensive Request-Fulfillment Framework, delivering the smart contract architecture, cryptographic verification logic, and automated compliance configurations necessary for institutional-grade data processing and auditability.

Work in progress deliverables will be made available to Stratalink, by end of Sprint 1, subsequently, project artifacts will be delivered in a sprint iterative approach. The following deliverables are expected as project outcomes:

- **Daml Orchestrator & Request Contracts:** Codebase supporting platform initialization, public key persistence management, and IC request parameters (e.g., Asset ID, Calculation Type).

- **Daml Attestation Contracts:** Codebase supporting the atomic creation of attestation records, including different output types, calculation results, TTL management (validUntil), and signature fields, and the capability of validating TTL and signature on manual ingestion operations.
- **Compliance Officer Access Configuration:** Demonstration of read-only access for an off-ledger Compliance Officer entity, providing equivalent visibility to the Platform Operator across the full request-to-issuance chain.
- **DAML-Level Test Suite & Documentation:** Comprehensive validation of the MVP on-demand data flow, state transitions, and consumer verification logic.
- **Technical Handover Documentation:** Full operational guides and Daml contract specifications for the MVP implementation. Deployment guidelines, documentation and support is the responsibility of the Canton validator node management provider, including but not exclusively, Daml artifact deployment on validator node, identity and access management.
- **Docker Images Handover:** Containerized solution for local Canton setup will be provided by the team in additional 5 business days working days extending the timeline and estimate by 40 hours of the Blockchain developer.

Oracle Adapter Interface Specification (Amendment A3, added by Stratalink Labs Ltd): The Adapter Interface Specification documentation is the responsibility of the entity developing it, however, IntellectEU will be supplementing it with the additional delivery of an API client collection (Bruno), included in the project repository, which shall include: (a) Daml template identifiers, choice names, and argument structures required for oracle attestation submission; (b) Ledger API schema for end-to-end attestation submission, including (c) transaction payload format and structure for committing a PoLi attestation to the Canton ledger; and (d) authentication requirements and party-hosting configuration for the Oracle Adapter's connection to the Canton validator.

Canton Network Deployment (added by Stratalink Labs Ltd): For the avoidance of doubt, the Daml contract deliverables under this SOW are designed for deployment on the Canton Network. Final sprint demonstration will be run against a live Canton environment (DevNet), which shall provide sufficient proof that the end-to-end flow is fully functional (the “Services”).

Acceptance Criteria (Amendment A4, added by Stratalink Labs Ltd): Acceptance of the Daml contract codebase deliverables under this SOW shall be conditional upon successful completion of the end-to-end MVP implementation, demonstrating the following lifecycle on Canton DevNet: (a) System initialisation: Orchestrator contract successfully created on Canton DevNet with Stratalink as Platform Operator party as sole signatory; (b) Request submission: Institutional Consumer party successfully submits an AttestationRequest contract via the JSON Ledger API; (c) Oracle acceptance: Platform Operator exercises the accept choice, atomically archiving the AttestationRequest and creating an Attestation contract containing a PoLi score, validUntil TTL timestamp, and cryptographic signature; (d) Consumer verification: Institutional Consumer successfully exercises the on-ledger

verification choice, confirming the cryptographic signature is valid and the attestation is not STALE; and (e) Compliance audit trail: Compliance Officer, as an external entity to the platform with read-only access to the full request-to-issuance chain, has the same visibility as the Platform Operator (Stratalink). Stratalink shall be responsible for designating the specific party identifiers intended to act as the Platform Operator, enabling IntellectEU to correctly identify these parties during contract generation. Stratalink shall have fifteen (15) business days from the final delivery of the source code to complete acceptance testing against the above criteria. In the event of non-acceptance, Stratalink shall provide a justified written notice detailing the specific reasons for rejection or a detailed defect report to IntellectEU within three (3) business days of the conclusion of the testing period. If Stratalink is unable to stand up the local test environment within three (3) business days of source code delivery, the parties shall convene within two (2) business days to resolve the blocker jointly before the acceptance period is deemed to have commenced.

Warranty. The warranty period shall be fifteen (15) days from IntellectEU's completion of the relevant Services and delivery of the applicable deliverable(s) under this SOW (the "Warranty Period"). As of delivery, the deliverable(s) shall materially conform to the scope, specifications and/or acceptance criteria (if any) expressly set out in this SOW. During the Warranty Period, IntellectEU will, upon Customer's written notice, use commercially reasonable efforts to correct any (i) objectively verifiable material non-conformity of the deliverable(s) to such scope/specifications/criteria, or (ii) reproducible technical defect or security vulnerability in the deliverable(s), in each case directly attributable to IntellectEU's performance of the Services and notified to IntellectEU in writing within the Warranty Period with sufficient detail to reproduce (the "Warranty").

The Warranty does not apply to any issue, defect, non-conformity, or vulnerability to the extent caused by: (a) requirements not expressly included in this SOW, or any changes thereto; (b) Customer's or any third party's systems, software, services, data, integrations, hosting/cloud infrastructure, configurations, environments, or dependencies (and any changes thereto); (c) Customer's or any third party's modification of, or combination/interoperation of, the deliverable(s) with other products, services, or code not provided by IntellectEU; or (d) use of the deliverable(s) other than in accordance with this SOW and the GTC, applicable documentation (if any), and IntellectEU's written instructions (if any).

Remedy: Customer's remedy under the Warranty is, at IntellectEU's discretion, to obtain corrections for the relevant non-conformity, defect, or vulnerability identified in the deliverable(s), which may require re-performance of the affected portion of the Services, using commercially reasonable efforts, assuming the Customer provides reasonable cooperation and access as needed.

Outcome-Based Delivery and Remediation (Amendment A8, added by Stratalink Labs Ltd): Notwithstanding the "commercially reasonable efforts" standard set out in the Warranty and Remedy provisions above, IntellectEU's obligation with respect to the PoLi Daml Contract Codebase deliverables under this SOW is to deliver those deliverables in a condition that satisfies the Acceptance Criteria set out in Amendment A4. In the event that any deliverable fails to satisfy the Acceptance Criteria following IntellectEU's first remediation attempt, IntellectEU shall be entitled to two (2) further remediation attempts, to be completed within ten (10) business days of Stratalink's written notification of the continued non-conformity. If, following that third remediation attempt, the deliverable continues to fail the Acceptance Criteria, such failure shall constitute a material breach of this SOW by IntellectEU, entitling Stratalink to terminate this SOW immediately upon written notice without penalty. This

Amendment A8 applies solely to the PoLi Daml Contract Codebase deliverables subject to the Acceptance Criteria in Amendment A4, and does not modify the reasonable efforts standard applicable to any other services under this SOW.

2. IntellectEU Assigned Staff

Delivery Manager 25%

Lead Daml Engineer 5%

Blockchain Engineer (Daml) 100%

(the “**IEU Staff**”).

Customer may request IntellectEU to assign additional specialist(s) to the IEU Staff or cancel the engagement of any particular specialist(s) from the current IEU Staff team by sending IntellectEU a 30-day prior written notice. Customer acknowledges that such a request shall lead to changes in the total fees for the project under this SOW, as shall be agreed between the Parties in writing.

3. IntellectEU Responsibilities

On a bi-weekly basis, IntellectEU shall provide the Customer with an update on the development status, including a demonstration of the project to the extent then developed.

4. Customer Responsibilities

Customer shall provide IntellectEU with applicable documentation and accesses, including means to contact relevant competent Customer’s staff, as reasonably required by IntellectEU to render the Services.

No live transaction data of the Customer or any sort of personally identifiable information (“**PII**”) will be processed, used, transmitted, captured or maintained by IntellectEU during the provision of Services or for any other purpose arising from the project scope.

The Customer agrees it will not provide IntellectEU with any PII of any kind, nor request that IntellectEU use any such data or information during the provision of Services.

Furthermore, IntellectEU is not responsible for the backup of any Customer data or information.

5. Location

IntellectEU shall perform the Services remotely.

6. Billing Terms

The standard billing terms for the scope and assumptions included in this SOW comprise the parameters listed below. All fees and costs listed below are based on the scope and assumptions included in this SOW.

(a) Retainer fee (“Security deposit”) Standard Terms:

Security deposit in the amount corresponding to the type of services listed above is payable 10 (ten) days after the execution of this SOW but not later than project kick-off:

- (i) for Short Term Project - 50% of the total Fee payable under the SOW;
- (ii) for Consultancy/Shaping Phase - 50% of the total Fee payable for the SOW, but not less than EUR 10,000.00;
- (iii) for Build/Run Phase - the amount of 4 (four) sprints (two months). IntellectEU may reduce it to 2 (two) sprints (one month) for future SOWs after 6 (six) months of positive payment track record of timely payments.

Notwithstanding the foregoing, the Parties agree that for the purposes of this SOW, the Security Deposit shall be set at £11,598.00 (eleven thousand, five hundred and ninety-eight pounds).

Security deposit shall be reimbursed upon successful project completion or may be included in the last payment amount if there are no disputed or unpaid invoices.

Chosen type of project/phase and security deposit conditions for this SOW based on the list above:

Build/Run Phase

- (b) **Hourly fee** (“Hourly Fee”) shall be payable as per the rate table provided below. IntellectEU reserves the right to charge Customer an increased rate for an overtime work based on local law regulations pertaining to each member of IEU Staff if the Customer explicitly requests/approves the overtime work in writing (email sufficient). For the avoidance of doubt, overtime shall include work beyond the amount of normal working hours as per local law regulations, and work during weekends and public

holidays. The final scope will be defined based on the actual time tracked. IntellectEU reserves the right to review fees (including but not limited to Hourly Fee and Security deposit) annually and increase them following market conditions/inflation.

Rate table and estimated subtotal:

Service description/Role	Hourly Fee	Estimated QTY	Estimated Subtotal
Delivery Manager	£115.00	60	£6,900.00
Lead Daml Engineer	£120.00	15	£1,800.00
Blockchain Engineer (Daml)	£107.00	280	£29,960.00

Including Security deposit - £ 11,598.00 (eleven thousand, five hundred and ninety-eight pounds)

Subtotal	£38,660.00
Tax	£0.00
Total	£38,660.00

The Parties agree to proceed on a Time and Materials (T&M) basis and therefore the Services under this SOW shall be billed based on actual hours worked at the rates defined in the Rate Table above. Notwithstanding the initial total estimate, the total fees payable shall be subject to a maximum budget cap of 15% above the initial estimate.

This Rate table is an estimated budget for this SOW and may be subject to changes if agreed by the Parties in writing via email based on the changes in the scope of the project, which may be reviewed during sprints and discussions with Customer, engagement of new roles or professionals with other rates when agreed with Customer. Hourly Fee agreed in this SOW is valid for the duration of the SOW only.

All payments shall be made net of any withholding taxes. If any such taxes are required to be withheld, the Customer shall gross up the payment so that IntellectEU receives the full invoiced amount.

(c) **External Commercial Licenses** (if any) used in the project shall be billed separately upon agreement in writing.

(d) **Expenses** – all expenses borne in connection with on-Site Services and all expenses related to Customer’s project shall be reimbursed by Customer no later than 15 (fifteen) days after invoice has been issued.

All travel and other additional expenses for the on-site Services are billable to Customer upon prior written approval (Parties confirm that an electronic mail will suffice). Out-of-pocket expenses (if any) shall be pre-approved by Parties and be payable at the rate agreed upon by Parties (Parties confirm that an electronic mail will suffice).

(e) Project Pause:

The Customer may request IntellectEU to pause the project and stop the provision of services under this SOW by sending IntellectEU a 30 (thirty) days prior written notice. Subject to such timely notice being sent, no amount shall be incurred by IntellectEU or invoiced to the Customer during such pause period.

In the event the Customer requests a pause in breach of the aforementioned notice period, IntellectEU may charge the Customer as compensation for the remaining days of halted work based on the following calculation: 30 days minus the number of days between the date of notice and the requested date of pause multiplied on up to 100% of the Hourly Fee rate stated in this SOW and on 8 hours per day. Both Parties shall participate in good faith discussions to resolve the compensation matter amicably.

To re-start the project and resume the provision of services under this SOW, the Customer shall send IntellectEU a 30 (thirty) days prior written notice. However, in such a case IntellectEU reserves the right to assign other specialists as IEU Staff in accordance with the roles and quantity of specialists stated in Section 2 of this SOW.

7. Invoicing Terms

The Standard Invoicing Terms are as follows:

- For Short Term Project (**Option 1**) : invoice shall be issued after the end of engagement for the rest of the amount due/total amount due and shall be payable within 15 calendar days by the Customer.
- For Consultancy/Shaping Phase and Build/Run phase (**Option 2**) : Invoice shall be issued after the end of each sprint (2 weeks) and shall be payable within 15 calendar days by the Customer.
- For lasting time and material, consultancy/development/support services not based on sprints (**Option 3**): invoice shall be issued monthly and paid in 15 calendar days by the Customer.

This project shall be invoiced
Option 2

8. Notices

Parties hereby agree that registered addresses provided by the Parties in this SOW are correct and valid. Each Party shall promptly notify the other of any change, giving the address of the new place of business or residence. All notices between the Parties, including but not limited to legal notices, information security claims, correspondence, shall be sent to the following email addresses:

If to IntellectEU: legal@intellecteu.com

If to the Customer: robert@stratalink.ai

GENERAL TERMS AND CONDITIONS

1. Scope of application

These “**General Terms and Conditions**” are applicable to all offers, proposals, Statements of Works (“SOWs”) and agreements made by or entered into by IntellectEU NV, a company incorporated under the laws of Belgium with registered office at Kanaalbrugstraat 15-5.1, 1500 Halle, Belgium (“**IntellectEU**”). The customer accepts these General Terms and Conditions through acceptance of the SOW, the agreement with proposal or the invoice, as the case may be.

The customer agrees that its own purchase or other conditions do not apply, save as explicitly accepted by IntellectEU in writing.

IntellectEU and the customer can additionally agree special terms and conditions in writing. In case of contradiction, the special terms and conditions executed between the parties will prevail over these General Terms and Conditions.

If any provision of these General Terms and Conditions is wholly or partially invalid or revoked, the remaining provisions of these General Terms and Conditions will remain in full force and effect.

2. Conclusion of the agreement

Proposals of IntellectEU are for information purposes only and non-binding. Such proposals are valid for thirty (30) days unless explicitly mentioned otherwise. An agreement between IntellectEU and the customer is concluded when the customer accepts a proposal and/or executes a SOW by way of:

- (i) digital signature through an online interface communicated to the customer;
- (ii) express confirmation by the customer; or
- (iii) a request to commence work via email with consent to commercial terms of IntellectEU proposal.

3. Statement of work

The scope of the agreement is limited to what has been agreed upon by the parties as Statement of Work (“SOW”) or otherwise in writing (including via email from authorised representative of the customer). If the customer extends or modifies the SOW during the exercise of the project or after completion of the project, such services shall be invoiced separately and additionally, subject to the prior consent. Amendments to the SOW must be made in writing and accepted by both the customer and IntellectEU unless otherwise agreed in the SOW with the customer.

All contractual obligations of IntellectEU are reasonable effort commitments.

Change Control — Budget and Scope Protection (Amendment A9, added by Stratalink Labs Ltd): Notwithstanding any provision of this Clause 3 or Clause 6 of the GTC that permits scope or budget changes to be agreed by email, any change to the scope of Services, estimated hours, Rate Table, or total fees under this SOW shall only be effective if documented in a written Change Order signed by authorised representatives of both Parties. For the purposes of this Amendment A9, a “Change Order” means a document that specifies: (a) the nature and description of the change to the Services or scope; (b) the estimated additional or reduced hours and fees; (c) the impact on the project timeline and sprint schedule; and (d) the signatures of an authorised representative of each Party. Email approval shall not constitute a valid Change Order for the purposes of this Amendment A9, notwithstanding any contrary provision in the GTC. IntellectEU shall not commence any work or incur any fees in connection with a proposed change until a signed Change Order has been received. Any fees incurred in respect of work performed without a valid signed Change Order shall not be payable by Stratalink. For the avoidance of doubt, the 15% budget cap set out in the Rate Table of this SOW shall not be exceeded without a signed Change Order, regardless of any prior email communications.

4. Cooperation by the customer

The customer is responsible for a correct, accurate and timely provision of information, cooperation and input concerning the services to be provided by IntellectEU. Without prejudice to article 9, IntellectEU shall never be liable to the customer for late or inadequate delivery of goods and/or services, if such delay or defect is caused by the failure of the customer to timely, correctly or accurately provide information or to promptly cooperate with IntellectEU’s every reasonable request relating to the agreement.

Upon IntellectEU’s request, the customer shall provide IntellectEU with access to, and use of, all information, data, documentation, computer time, facilities, working space, personnel, and office services deemed reasonably necessary by IntellectEU to enable it to perform its obligations under the SOW and these General Terms and Conditions.

The customer is solely responsible for the use and application in its organisation of the software and services provided by IntellectEU and for the monitoring and security procedures with proper system management.

If a SOW stated a fixed Fee for a certain category of services, such an amount is calculated based on the roadmap, milestones, and assumptions jointly agreed between the parties during the services planning stage (including any proposal) and depends on the customer's timely cooperation, information, and approvals as stated in this section. In the event the customer changes the initially agreed scope of services, cause material delay, fail to communicate or provide required inputs, or otherwise deviate from the agreed approach, IntellectEU may, upon prior written notice, (a) convert the affected portion of the services to time-and-material basis and invoice all past and future effort at the rates specified in the SOW based on actual time tracked, or (b) suspend performance of the affected portion of the services until the parties agree in writing on relevant amendment to the SOW and the customer pays all undisputed amounts invoiced to date.

5. Term and termination

Each agreement shall be valid for the term as defined in the SOW. If the executed SOW does not set out a duration, the agreement shall be valid for an indefinite period of time until completion of the services by IntellectEU, or termination by either party ("Term").

Notwithstanding anything herein to the contrary, either party may terminate the agreement upon sixty (60) calendar days written notice. Customer agrees to pay all fees and expenses incurred by IntellectEU for the services performed up to the effective date of termination, at the agreed rates set forth in the applicable SOW or in absence of executed SOW in agreed proposal via email as the case may be.

Each party is entitled to terminate the agreement with immediate effect, in whole or in part, without judicial intervention, by registered letter, if:

- (i) the other party fails to comply with one or more of its contractual duties to the extent that this party has not remedied the breach within a period of thirty (30) calendar days after notice of default;
- (ii) bankruptcy of the other party has been applied for or declared;
- (iii) the other party, due to seizure, winding up of its business or liquidation of its assets, being placed under external management or otherwise loses the power to dispose of its assets or substantial parts thereof.

IntellectEU is entitled to suspend its performance with immediate effect without judicial intervention, wholly or partially, if the customer, after notice of default, fails to comply with one or more obligations of the agreement.

If it is agreed that the services may be provided in several phases depending on the project. IntellectEU has the right to postpone the following phase until the customer has accepted the results of the preceding phase in writing pursuant to article 8 and complied with all other obligations related to that phase.

6. Fees and expenses

For all services performed by IntellectEU, customer will pay the fees as set out in the executed SOW or agreed in proposal via email if the SOW is not executed (the "Fee"). The Fee is exclusive of VAT and other levies imposed by the government.

Customer shall pay to IntellectEU retainer fee ("Security Deposit") in amount corresponding to the type of services performed under the executed SOW.

Security Deposit standard terms are as follows:

- (i) for Short Time Project - 50% of the total Fee payable under the SOW;
 - (ii) for Consultancy/Shaping Phase - 50% of the total Fee payable for the SOW, but not less than EUR 10,000.00;
 - (iii) for Build/Run Phase - the amount of 4 (four) sprints (two months). IntellectEU may reduce it to 2 (two) sprints (one month) for future SOWs after 6 (six) months of positive payment track record of timely payments;
- OR other sum as agreed in the executed SOW, but not less than 10,000.00 EUR before a start of services. Security Deposit to be credited against final invoice issued pursuant to these General Terms and Conditions or particular executed SOW.

Unless otherwise agreed upon in the SOW, all travel expenses and reasonable out-of-pocket expenses incurred during the exercise of the agreement, will be charged by IntellectEU to the customer upon the provision of supporting evidence.

Unless otherwise agreed upon in the SOW, IntellectEU will invoice customer as follows:

- (i) Depending on the nature of engagement as specified in executed SOW on Net15 payment terms, for services performed by IntellectEU and expenses incurred; and
- (ii) Custom arrangements, as indicated in the executed SOW.

IntellectEU preserves the right to charge for booking of particular team members by the customer if the start of any stage of the project delay is caused by the customer without any advance notice made by the customer to IntellectEU at least 10 working days before agreed project delivery start date.

Booking of team for the project shall be counted in Mandays ((7.5 of working hours a days or 8 of working hours a day based on the applied legislation requirements to IEU Staff (“Staff”) in residence country) per each booked team member at agreed Fee/rate per Manday. The cases when customer delays to provide any necessary accesses, equipment, information on the scope of project to IntellectEU for the purposes of this paragraph shall be deemed as delays caused by the customer.

In the event customer disputes any portion of an invoice, such customer shall promptly and at the latest within five (5) business days after receipt of disputed invoice, notify IntellectEU of such disputed amount and the background for customer’s, together with any appropriate information supporting customer’s position.

Any invoice which remains undisputed pursuant to this article 6 shall be paid by customer in currency outlined in invoice within fifteen (15) calendar days from the invoice date unless otherwise agreed upon in the SOW.

Late fee equal to an annual interest rate of twelve percent (12%) may be charged if customer fails to pay any outstanding invoice within thirty (30) days from invoice issue date. Such late payment fee will be calculated on a monthly basis until invoices overdue are settled in full and will be cumulative. The customer shall not be entitled to offset any payment of fees and expenses against any and all amount IntellectEU might owe the customer.

7. Intellectual property rights

All intellectual property rights belonging to a party prior to the execution of the SOW or entry into force of the agreement with proposal through consent sent via email or otherwise (“**Effective Date**”), including, without limitation, the software proprietary tools, methodologies, materials, presentations, proposals, know-how, processes, technologies, modules, components, programs, analytics, frameworks developed or used by a party prior to the Effective Date or developed independently from the SOW and services provided hereunder (“**Pre-existing IPR**”), shall remain the exclusive ownership of that party, including enhancements and improvements to the aforementioned tools and materials which such party develops in the course of the services provided hereunder.

During the Term, the customer grants IntellectEU a non-exclusive, worldwide, royalty-free, revocable and limited license to use customer’s Pre-existing IPR, to the extent necessary and useful for IntellectEU to perform its obligations hereunder.

In this agreement the definition “**Deliverables**” shall mean any and all software programming, (including all object code, source code and source code materials pertaining thereto), work product, code, data, and deliverables created, developed, or derived with the assistance of AI Tools, encompassing, but not limited to, code suggestions, optimized functions, and testing frameworks and other deliverables, and all related written reports, requirements documents (including newly created technical and non-technical data embodied therein), specifications, program materials, flow charts, notes, outlines and the like, and all intermediate and partial versions thereof, that are developed, authored, conceived, originated, prepared or otherwise created by IntellectEU or its employees, agents or subcontractors for or on behalf of customer in connection with IntellectEU’s performance of services hereunder during the Term, for all exploitation methods, whether known or unknown at the Effective Date of the agreement, and regardless of the technical means for such exploitation.

To the extent any Deliverables hereunder would contain IntellectEU’s Pre-Existing IPR, the customer is granted a perpetual, personal, restricted, non-exclusive, transferable, worldwide and assignable license, with the right to sublicense, to use IntellectEU’s Pre-Existing IPR, including without limitation, any third party intellectual property rights, to the extent necessary to be able to use the Deliverables unless otherwise agreed in the executed SOW and excluding the software owned by IntellectEU which is marketed and licensed under separate license, the use of such software shall be defined in the separate license agreement.

All rights, titles or interests in or to any Deliverables, including but not limited to any intellectual property rights in and thereto and any derivative works created therefrom, shall vest in and shall be the exclusive property of IntellectEU during the course of the services provided hereunder. IntellectEU shall grant to the customer a non-exclusive, non-transferable, worldwide, royalty-free, revocable and limited license to use the Deliverables created and developed by IntellectEU during the course of the services provided hereunder. At the moment of and subject to full payment by the customer of the Fee and all expenses invoiced by IntellectEU pursuant to article 6 of these General Terms and Conditions, IntellectEU shall transfer any and all rights, titles and interests in or to the Deliverables made hereunder to the customer excluding the software owned by IntellectEU which is marketed and licensed under separate license, the use of such software shall be defined in the separate license agreement. The customer grants IntellectEU a perpetual, worldwide and royalty-free license to use the Deliverables for IntellectEU’s internal business purposes, including internal training, knowledge management, improvement and reuse of methodologies, tools, templates, libraries and software components with and without assistance of AI tools. For this purpose IntellectEU may reuse the residual knowledge and code parts to deliver services to others, provided that such reuse does not result in the complete reproduction of the customer’s proprietary solution.

For the purposes of public announcements and public presentations of non-confidential information which shall include name and logo of IEU's customer and end client, name of project and brief description of the project the Parties will not need any consent in writing unless some details are separately restricted by the Client in writing to IEU. Such duly restricted details shall be deemed confidential.

AI Tools Usage. IntellectEU reserves the right to use at its sole discretion any software, system, model, or service (whether proprietary or third-party) that uses artificial intelligence, machine learning, or algorithmic techniques to analyze, generate, optimize, or otherwise process code, text, or data, including but not limited to large language models (e.g., GPT, Claude, Gemini, LLaMA), code assistants (e.g., GitHub Copilot, Amazon CodeWhisperer, Gemini Code Assist, IntelliCode), automated testing or refactoring tools, and any similar or successor technologies ("AI Tools"), in connection with the provision of the services involving Deliverables, for purposes such as analyzing, processing, drafting, testing, reviewing, optimizing code and other Deliverables, as well as conducting evaluation, quality assurance, and improvement activities.

IntellectEU shall ensure that any use of AI Tools is aligned with its confidentiality obligations set forth in these General Terms and Conditions and shall ensure that Customer inputs and/or Deliverables are not used for AI model training or shared with third parties, except as strictly necessary to operate the AI Tool under settings preventing such reuse. The Customer expressly authorizes IntellectEU to process Deliverables through AI Tools under these conditions.

PoLi Daml Contract IP Ownership — Full Assignment on Payment (Amendment A1, strengthened by Stratalink Labs Ltd): Notwithstanding anything to the contrary in this Clause 7 or the SOW, upon Stratalink's full and final payment of all Fees, Security Deposit amounts, expenses, and charges due under SOW #USGTC 20260010, all rights, title, and interest — including all intellectual property rights and to the unique business logic of the PoLi Daml Contract Codebase (as defined below) shall automatically vest in and be assigned to Stratalink absolutely, free of any licence, encumbrance, or reservation of rights by IntellectEU. For the purposes of this Amendment A1, "PoLi Daml Contract Codebase" means the Orchestrator contract, AttestationRequest contract, Attestation contract, and all associated data schemas, cryptographic verification logic, lifecycle logic, deployment scripts, configuration artefacts, and technical documentation delivered under this SOW, together with all derivative works and on-ledger implementations thereof on the Canton Network. This assignment is strictly limited to the specific configuration and orchestration of the PoLi Daml Contract Codebase as a finished product and specifically excludes IntellectEU's Pre-Existing IPR and Excluded Software as defined below.

Notwithstanding the assignment set forth above, IntellectEU shall retain a perpetual, irrevocable, worldwide, and royalty-free right to use and apply all general Daml engineering knowledge, methodologies, architectural patterns, and know-how utilized or developed during the performance of the Services. IntellectEU reserves the right to reuse non-client-specific code components and residual knowledge to provide services to third parties, provided such reuse does not disclose client's confidential information or replicate the specific proprietary business solution of the PoLi Daml Contract Codebase.

Pre-Existing IPR Disclosure (Amendment A1, strengthened by Stratalink Labs Ltd): To the extent IntellectEU intends to embed any Pre-Existing IPR (as defined in Clause 7) within the PoLi Daml Contract Codebase, IntellectEU shall identify and disclose all such Pre-Existing IPR to Stratalink at any stage during the term of the SOW. Stratalink acknowledges that Pre-Existing IPR embedded in the Deliverables shall be licensed to Stratalink on a perpetual, irrevocable, royalty-free, worldwide basis sufficient to permit Stratalink's full and unrestricted use, deployment, modification, and commercialisation of the PoLi Daml Contract Codebase without further consent from or payment to IntellectEU.

Excluded Software. For the avoidance of doubt, the Catalyst Blockchain Manager platform and any associated validator node management tooling provided by IntellectEU under a separate Catalyst licence agreement shall not be embedded in the PoLi Daml Contract Codebase and shall be governed exclusively by that separate agreement. IntellectEU does not assign, license, or transfer any rights to any other proprietary software, platforms, or internal tools owned by IntellectEU, whether or not such software is used in the performance of the Services, unless specifically identified in a separate written agreement signed by both Parties.

8. Acceptance

If the SOW specifies any Deliverables that are subject to acceptance, IntellectEU shall provide the Deliverables as set forth in the SOW and customer shall accept such deliverable in writing within ten (10) business days after receipt of the deliverable. In the event customer fails to accept or reject the deliverable within this acceptance period, the deliverable shall be deemed accepted.

The customer is responsible for a detailed control of the delivered goods and/or services at the moment of delivery or completion. If the customer wishes to reject a delivered good or service, the customer must send IntellectEU a detailed and accurately described complaint setting out the defects of the software or service within the time limit as described above. If the complaint is accurate and reasonable, IntellectEU shall correct defects free of charge as soon as possible.

The acceptance of software and/or services is considered to be a confirmation of the conformity between the ordered and delivered software and services.

9. Liability

All contractual obligations of IntellectEU are reasonable effort commitments. IntellectEU does not give any express or implied warranty to the goods or services, including any guarantee for fitness to a particular purpose or marketability.

If IntellectEU breaches its obligations under these General Terms and Conditions and would be liable to the customer pursuant to the terms set forth in this article, IntellectEU shall only be obliged to perform the service again (compensation in kind). Only if this proves impossible or manifestly unreasonable, IntellectEU will be obliged to compensate the direct damage within the limits defined below.

IntellectEU shall not be liable for any indirect, consequential, punitive, or special damages, including loss of revenue or profits, loss of business, contracts, goodwill or anticipated savings, damages due to business interruption, loss or corruption of data or reputational damage, even if IntellectEU has been advised or notified of the possibility of such costs or damages.

Nothing in these General Terms and Conditions shall operate to exclude or restrict a party's liability for:

- (i) its gross negligence;
- (ii) fraudulent misrepresentation; or
- (iii) any other liability to the extent prevented from being excluded or limited by applicable law.

The customer is responsible to abide to all applicable statutory and contractual obligations, and shall indemnify and hold harmless IntellectEU for all direct damage and costs caused by breaches by the customer of its obligations, including claims from third parties. The customer shall indemnify and hold harmless IntellectEU against all claims from third parties for product liability due to a defect in a product or system that is delivered to a third party by the customer and that partly consisted as products supplied by IntellectEU. If any liability to third party arises hereunder it is limited with the limit outlined here above.

IN NO EVENT SHALL INTELLECTEU'S AGGREGATE LIABILITY ARISING OUT OF OR RELATED TO THESE GENERAL TERMS AND CONDITIONS, WHETHER ARISING OUT OF OR RELATED TO BREACH OF CONTRACT, TORT (INCLUDING NEGLIGENCE), OR OTHERWISE, EXCEED THE AGGREGATE AMOUNTS PAID OR PAYABLE TO INTELLECTEU PURSUANT TO TO THESE GENERAL TERMS AND CONDITIONS IN THE TWELVE (12) MONTH PERIOD PRECEDING THE EVENT GIVING RISE TO THE CLAIM.

Limitation of Liability — Enhanced Cap and Mandatory Carve-Outs (Amendment A7, added by Stratalink Labs Ltd): Notwithstanding anything to the contrary in this Clause 9 or elsewhere in this SOW, IntellectEU's aggregate liability arising out of or in connection with this SOW, whether in contract, tort (including negligence), breach of statutory duty, or otherwise, shall not be greater than one hundred and fifty percent (150%) of the total Fees paid or payable to IntellectEU under this SOW; or (b) EUR 150,000. For the avoidance of doubt, this Amendment A7 supplements and does not reduce the aggregate liability cap set out in the preceding paragraph of this Clause 9. Notwithstanding any other provision of this Clause 9 or the GTC, the limitations and exclusions of liability set out in this Clause 9 shall not apply to, and IntellectEU's liability shall be unlimited in respect of: (a) any breach of its confidentiality obligations under Clause 14 of the GTC; (b) any infringement of third-party or Stratalink's intellectual property rights, including any breach of the IP assignment and restriction obligations under Amendments A1 and A6 of this SOW; (c) fraud, fraudulent misrepresentation, wilful misconduct, or gross negligence on the part of IntellectEU or its personnel.

10. Force majeure

Neither party is obliged to fulfil any agreed obligation if prevented from doing so by reasons of strikes, total or partial interruption of transport, electricity and telecommunications problems, business interruptions, breach of contract and/or force majeure on the part of suppliers, licensing requirements and other legal and regulatory requirements, the death of an involved employee, serious illness of an involved employee, prohibitions or orders from the authorities ("Force Majeure"). The agreed obligations in such case are totally or partially suspended for the duration of the Force Majeure, without liability for any damages arising with respect to the other party.

If the event of Force Majeure lasts more than fifteen (15) days, IntellectEU has the right to end the performance of services hereunder and terminate any SOW in writing by registered letter without prior recourse to a judge and without damage compensation. In such a case, IntellectEU is entitled to payment by the customer for any goods or services already provided and the costs that have already been made with a view to the future performance of the earlier ordered services. Failure by IntellectEU to fulfil its contractual obligations as a result of Force Majeure is not a ground for the customer's termination or suspension of execution of the SOW or non payment of invoices for the services performed hereunder.

11. Non-exclusivity

The customer is contracted on non-exclusive basis. During the Term and after the end of the Term, IntellectEU is entitled to deliver services to and enter into contracts with any third parties including any competitors of the customer.

12. Subcontractors

IntellectEU shall be allowed to contract the services of subcontractors for the execution of the SOW. IntellectEU shall remain responsible to the customer for the satisfactory provision of the services as agreed upon in the SOW and the correct observance of the obligations set forth in these General Terms and Conditions by any of such subcontractors.

Subcontractor IP Assignment Obligation (Amendment A6, added by Stratalink Labs Ltd): Notwithstanding the generality of Clause 12, where IntellectEU engages any subcontractor to perform any part of the services under SOW #USGTC 20260010 that involves the creation, development, or contribution to the PoLi Daml Contract Codebase (as defined in Amendment A1 of GTC Clause 7), IntellectEU shall, prior to engaging such subcontractor on those services, obtain from that subcontractor a written assignment of all intellectual property rights in any work product created by the subcontractor that forms part of the PoLi Daml Contract Codebase. Such assignment shall be on terms that: (a) vest full title to all such intellectual property rights in IntellectEU or directly in Stratalink; (b) are sufficient to enable IntellectEU to fulfil its obligation to assign the full PoLi Daml Contract Codebase to Stratalink under Amendment A1 of this Clause 7, free of any third-party claim, encumbrance, or residual licence right arising from the subcontractor's contribution; and (c) confirm that the subcontractor waives any moral rights in their contribution to the extent permitted by applicable law. IntellectEU shall, upon Stratalink's written request, provide evidence of such subcontractor assignments within ten (10) business days of the request.

13. Non-solicitation

During the Term and for a period of eighteen (18) months thereafter, Customer shall not, directly or indirectly, in any manner, recruit, solicit, hire or otherwise induce or attempt to induce, including engaging under any contract, any employee or independent contractor (including any contractor engaged through external providers, such as employer-of-record (EOR) service providers, staffing agencies and other similar providers of employment as a service) of IntellectEU to terminate existing employment (engagement under contract) or otherwise to act contrary to the interests of IntellectEU. Should any employee or independent contractor of IntellectEU (including employee and contractor of any subsidiary of IntellectEU) be engaged in any kind of business commitment (including employment or contractual relations) with the Customer or any subsidiary of the customer during the Term and for a period of eighteen (18) months thereafter, the Customer shall pay to IntellectEU for each such engaged employee and contractor the recruitment fee equal to either yearly gross remuneration respective individual or fifty thousand EUR (EUR 50,000) whichever of two is greater in particular case.

The same restriction shall apply to any candidates or potential hires introduced, identified, or otherwise made known to the Customer by IntellectEU who are not employees or contractors of IntellectEU. In the event that any such candidate is engaged by, or induced to terminate relations with IntellectEU by the Customer or any of its affiliates in any manner described above, the Customer shall pay the applicable recruitment fee in the amount of twenty-five thousand EUR (EUR 25,000), which both Parties acknowledge as a reasonable estimate of the costs and efforts incurred by IntellectEU in connection with its recruitment activities.

14. Confidentiality and Data Protection

All information, in whatever form, provided by one party to the other party which is indicated to be confidential or proprietary or which by its nature is deemed to be confidential or proprietary ("**Confidential Information**"), shall be considered Confidential Information.

Unless with prior written consent of the party disclosing Confidential Information, the receiving party shall:

- (i) only use such information for the purpose for which it was provided and to meet its obligations hereunder;
- (ii) store it with at least the same degree of care it uses to store its own confidential Information, but in no event less than a reasonable degree of care; and
- (iii) not disclose it to any third party.

A receiving Party shall not be required to treat as confidential any information that is already in its possession prior to any disclosure by the disclosing party, which becomes publicly available other than as a result of any breach of this article by the receiving party, or which is independently developed by it, or which is lawfully obtained from any third party without restriction on disclosure.

Nothing in this article shall prevent a party from disclosing Confidential Information where ordered to do so by a court or a statutory or regulatory body with power to order such disclosure. However, in such case, the party ordered to disclose Confidential Information shall inform and consult with the disclosing party in advance as soon as practically possible.

Notwithstanding the provisions of this article, the receiving party may communicate the Confidential Information of the disclosing party to its employees, consultants and suppliers who are directly involved with and/or must be informed of such Confidential Information for the provision of the services hereunder.

Upon explicit written request from the disclosing party, receiving party shall promptly return or destroy all Confidential Information and any materials (and all copies thereof) on any media belonging to the disclosing party or received from any third party which is in receiving party's possession or under its control and shall confirm in writing to the other party that it has complied in all respects with this article 14. However, parties should be entitled to retain a copy of the project documentation after the end of the Term or after the request for return or destruction was made for reasons related to archiving, quality control or to comply with its legal and regulatory obligations.

The parties acknowledge that it may be impossible to destroy all electronic copies of records containing Confidential Information from all of the receiving party's servers, devices, accounts, and/or other electronic records. The receiving party will take commercially reasonable steps to destroy all electronic records containing Confidential Information upon the disclosing party's request. However, if any copies remain in the receiving party's records, it will make commercially reasonable efforts to continue complying with the confidentiality obligations set forth in this article 14 for any records not destroyed.

If for the purposes of provision of services hereunder client transfers to IntellectEU and any duly engaged contractors any personal data of any individuals, it is sole responsibility of customer to receive approval, under provisions of US legislation and General Data Protection Regulation approved by the EU Parliament on 14 April 2016, enforced on 25 May 2018 ("GDPR") and applicable laws and regulations, for transfer of such personal data and processing of personal data by IntellectEU and its contractors in EU and outside EU (in Ukraine). Customer guarantees and warrants IntellectEU that all personal data transmitted hereunder and under any SOW is duly collected and processed under provisions of US law and GDPR and other applicable laws and regulations.

Customer hereby authorize IntellectEU to store and process personal data of the Customer's employees/contractors/subcontractors if it is necessary for IntellectEU to administer the contractual relationship in connection with the performance of this Agreement based on the legal basis of the performance of a contract. Furthermore, Customer agrees that IntellectEU may process Customer's personal data to develop and/or maintain business relations and communications, to contact Customer for the purposes of promotion of IntellectEU's products, works and services, to invite Customer to the meetings, events and organize them after expiry or termination of this Agreement.

IntellectEU shall process any personal data in compliance with effective version of [IntellectEU Privacy Policy](#), effective GDPR legislation and any applicable local legislation if the demands are higher than prescribed by GDPR.

Publicity: For the purposes of public announcements and public presentations of non-confidential information which shall include name and logo of IEU's customer and end client, name of project and brief description of the project the Parties will not need any consent in writing unless some details are separately restricted by the Client in writing to IEU. Such duly restricted details shall be deemed confidential.

Publicity Restriction (invoked by Stratalink Labs Ltd pursuant to this Clause 14): Notwithstanding the foregoing, IntellectEU shall not make any public announcement, press release, case study, social media post, or other public communication referencing Stratalink Labs Ltd, its name, logo, or product names (including PoLi, TILT, DACT, or Stratalink), or the existence of this engagement, without Stratalink's prior written consent, until such time as Stratalink provides written authorisation to proceed. This restriction remains in effect for the duration of this SOW and for a period of twelve (12) months after the Expiration Date, unless Stratalink provides earlier written consent.

15. Relationship of the Parties.

The relationship between the parties is that of independent contractors. The details of the method and manner for performance of the services by IntellectEU shall be under its own control, customer being interested only in the results thereof. IntellectEU shall be solely responsible for supervising, controlling and directing the details and manner of the completion of the services. Nothing in these General Terms and Conditions shall give customer the right to instruct, supervise, control, or direct the details and manner of the completion of the services. The services must meet customer's final approval and shall be subject to the customer's general right of inspection throughout the performance of the services and to secure satisfactory final completion. Nothing contained in these General Terms and Conditions shall be construed as creating any agency, partnership, joint venture or other form of joint enterprise, employment or fiduciary relationship between the parties, and neither party shall have authority to contract for or bind the other party in any manner whatsoever.

16. DORA Compliance

16.1. This section outlines the terms of compliance with the EU Digital Operational Resilience Act (**DORA**), which shall apply solely for the cases where the provision of the services supports any function of the customer being a financial entity in the EU as defined in DORA. These terms are supplementary to and form part of the General Terms and Conditions.

16.2. Allocation of Rights and Obligations. The rights and obligations of the customer and IntellectEU shall be clearly defined and documented in these General Terms and Conditions and relevant SOW, both shall be available in a downloadable, durable, and accessible electronic format.

16.3 Contractual Arrangements. The contractual arrangements for the provision of the services by IntellectEU includes the following elements:

- (i) **Description of the Services:** A comprehensive description of the services provided shall be detailed in the SOW.
- (ii) **Location of the Services:** The locations from which IntellectEU staff shall provide services to the customer shall be specified in the relevant SOW. The customer hereby authorizes IntellectEU to engage IntellectEU's affiliated entities, employment platforms, and physical persons acting as individual contractors to provide the services as IntellectEU's subcontractors. The list of locations of IntellectEU's subcontractors involved in providing services to the customer shall be provided upon request. The customer data supplied to IntellectEU during the provision of the services shall primarily be processed within the data processing location of the EU as the leading cloud-based/SaaS solutions utilized by IntellectEU to provide the services are hosted in EU-based data processing locations. However, the customer data may also be accessed and processed by IntellectEU personnel on a need-to-know basis, including on laptops, for operational purposes subject to internal security policies in the EU, USA, Ukraine, Indonesia, and Mexico, unless otherwise stated in the relevant SOW. Any significant changes to these arrangements will be communicated to the customer in advance.
- (iii) **Data Protection:** IntellectEU ensures that data protection measures align with applicable laws and regulations, maintaining the confidentiality, integrity, and authenticity of data.
- (iv) **Personal Data Access and Recovery:** In the event of IntellectEU's insolvency, resolution, discontinuation of operations, or termination of these General Terms and Conditions, IntellectEU shall transfer the customer's personal data back to the customer (if any) with further deletion of such data, except for the cases where the applicable law requires keeping such information for some specific term.
- (v) **Incident Assistance:** IntellectEU will assist the customer in addressing information security incidents caused by IntellectEU.
- (vi) **Regulatory Cooperation:** IntellectEU shall fully cooperate with competent authorities in jurisdictions of presence, including resolution authorities, as required.
- (vii) **Termination Rights:** These General Terms and Conditions include clear termination rights and notice periods consistent with regulatory expectations, as detailed in the section titled "Term and termination" as may be amended by the relevant SOW.
- (viii) **Participation in Security Programs:** IntellectEU agrees to participate in the customers ICT security awareness programs and operational resilience training as required.

16.4. **Additional Terms for Critical or Important Functions.** If the services rendered by IntellectEU support the customer's functions that are deemed critical or important according to DORA as shall be further established in the relevant SOW, the following additional provisions shall apply:

- (i) **Service Levels and Monitoring:** If applicable, SOW shall contain a full-service level description of the services to allow effective monitoring by the customer of such services and enable appropriate corrective actions to be taken, without undue delay, when agreed service levels are not met;
- (ii) **Notification Obligations:** IntellectEU will notify the customer of any development materially impacting the provision of the services.
- (iii) **Contingency Planning:** IntellectEU maintains and periodically tests its own Business Continuity and Disaster Recovery plans to address potential disruptions of the services. IntellectEU's security measures are aligned with ISO 27001 standard.
- (iv) **Cooperation in TLPT:** IntellectEU agrees to fully cooperate in the customer's Threat-Led Penetration Testing (TLPT) exercises, if any.
- (v) **Performance Monitoring:** The customer retains the right to monitor IntellectEU's performance, including:
 - unrestricted right of access, inspection and audit by the customer, or an appointed third party, and by the competent authority, and the right to take copies of relevant documentation on-site if they are critical to the operations of IntellectEU, the effective exercise of which is not impeded or limited by other contractual arrangements or implementation policies;
 - If applicable, IntellectEU's right to suggest and agree on alternative service levels if other IntellectEU customers' rights are affected;
 - the obligation of IntellectEU to fully cooperate during the onsite inspections and audits performed by the competent authorities, the Lead Overseer (as defined in DORA), the customer, or an appointed third party; and
 - the customer's obligation to provide details on the scope, procedures to be followed, and frequency of such inspections and audits;
- (vi) **Exit Strategies:** IntellectEU shall provide an exit strategy plan on the customer's request that shall stipulate an adequate transition timeframe:
 - during which IntellectEU will continue providing payable services to reduce the risk of disruption of customer's critical functions or to ensure its effective resolution and restructuring; and

- allowing the customer to migrate to another service provider or change to in-house solutions consistent with the complexity of the services.
- Such timeframes may be changed upon execution of a separate document.

17. Severability; Waiver; Survival

If a provision of these General Terms and Conditions is determined to be invalid or unenforceable, this shall not affect the remaining provisions which will remain valid or enforceable. Any failure to enforce any provision of these General Terms and Conditions shall not constitute a waiver thereof or of any other provision. The provisions of these General Terms and Conditions which are expressly or implicitly intended to survive termination of the agreement between the parties, shall survive any termination or expiration thereof for a period of five (5) years.

18. Governing law and jurisdiction

These General Terms and Conditions, including any and all SOW or any written document concluded between the parties (including written consent with the proposal passed via email by the customer as the case may be), shall be exclusively governed by and construed in accordance with the laws of Belgium regardless of its conflict of law principles. Any dispute arising hereunder which cannot be amicably settled between the parties within a reasonable period shall be submitted to the exclusive jurisdiction of the state court located in Belgium. Each Party irrevocably and unconditionally submits to the exclusive jurisdiction of such courts and agrees to bring any such action, litigation or proceeding only in the courts Belgium. Each Party agrees that a final judgment in any such action, litigation, or proceeding is conclusive and may be enforced in other jurisdictions by suit on the judgment or in any other manner provided by law.

19. Client's representations and warranties.

The Client represents and warrants that:

- it has full capacity and authority to enter into and to perform its obligations under this agreement;
- there are no actions, suits or proceedings or regulatory investigations before any court or administrative body or arbitration tribunal pending or, to its knowledge, threatened against it that might adversely affect its ability to perform its obligations under this agreement;
- it has not done, and in performing its obligations under this agreement, it shall not do, any act or thing that contravenes applicable laws, including the anti-bribery, anti-money laundering, anti-human trafficking laws and/or regulations and it has maintained and monitored, and will maintain and monitor, policies and procedures designed to ensure, and which are reasonably expected to continue to ensure, continued compliance with the related applicable laws;
- it has not, and shall not infringe the copyright, trademark, service or trade secret rights of any party, or constitute fraud, defamation, obscenity, or a violation of any right of privacy or publicity or any party;
- it has not, and shall not commit any fraud or deceit or made any intentional misrepresentations in the procurement of this agreement; commit, or attempt to commit, any fraud or deceit upon or after the Effective Date of this agreement; make any material misrepresentations or breaches any representations and warranties in this agreement (including SOW); or include any materially false or misleading statement, representation, or warranty during the normal course of business under this agreement; and
- its all information contained in the IntellectEU's KYC Form remains true, obligations under this agreement constitute its legal, valid and binding obligations, enforceable in accordance with their respective terms subject to applicable bankruptcy, reorganisation, insolvency, moratorium or similar laws affecting creditors' rights generally and subject, as to enforceability, to equitable principles of general application (regardless of whether enforcement is sought in a proceeding in equity or applicable law).

20. Background checks

IntellectEU performs background screenings for the entire Staff who require access to the IntellectEU premises, information and/or network systems and due diligence checks of the IntellectEU Customers/partners/suppliers. Additional background checks of the Staff may be performed by the Customer on its premises and/or via its network systems. In such a case, IntellectEU reserves the right to bill the Customer for performing additional background checks of the Staff on an hourly pro-rata basis as per the rates stated in the SOW

21. Entire Agreement

These General Terms and Conditions, including and together with any related Statements of Work, exhibits, schedules, attachments and appendices, constitutes the sole and entire agreement of the Parties with respect to the subject matter contained herein, and supersede all and/or contemporaneous prior agreements, arrangements, covenants and understandings, whether oral, written or implied, between the parties hereto or their predecessors, regarding such subject matter. The Parties acknowledge and agree that if there is any conflict between these General Terms and Conditions and any such prior agreements, the terms of these General Terms and Conditions shall supersede and control in their entirety.
